

# End-to-End Platform & Asset Logistics Management

## Defense

### Construction Vehicles Land, Naval and Aviation Assets

Working extensively with armed forces' logisticians, VT Group helps maintain the readiness of key operational platforms, systems, assets and equipment beyond maintenance logs and inventory sheets.

We collaborate with our customers to determine operational and logistics support requirements, and continuously look for ways to improve reliability, efficiency and effectiveness at the lowest possible cost. As a trusted partner, we often are contracted by government entities for availability, shouldering the risk for delivering the platform or asset on time, ready to operate and mission capable, allowing our customers to do the hard part—completing their mission.

We provide comprehensive asset management services for aviation, sea/undersea, man-based and land-based tactical, strategic and transportation systems, ensuring that every part of every asset is serviced, refitted or retired at the right time based on tolerance and use.

#### Aviation Platforms

- AH-64 Apache
- CH-47 Chinook
- UH-60 Blackhawk
- OH-58 Kiowa Warrior
- AH-1 Cobra
- E-2 Hawkeye
- UAV/UAS

#### Surface Ship Platforms

- Aviation: CVN
- Submarine: SSN/SSBN
- Surface: DD/DDG/FFG/CG
- Amphibious: LPD/LPH/LHA/LHD

#### Missile Systems

- Patriot
- TOW
- Avenger
- Hawk

#### Land Systems Operations and Maintenance

- Tactical Vehicles: MRAP and HUMVEE
- Non-Tactical Vehicles: Commercial and "White Gear"
- Construction Vehicles and Heavy Equipment

#### Equipment

- Multiple Optical Sighting and Ranging Equipment
- Electro-optic and Infrared Systems (EO/IR)
- Tactical Computer Equipment
- Chemical Agent Monitors (CAM)

VT Group is a major support service provider that delivers mission critical capabilities for air, land and sea. As a leader in the defense market, we have an enviable reputation for managing key asset availability and engineering support contracts.

As a major provider of life cycle support to military and non-military equipment, we are trusted to support:

- 3,200 military aircraft,
- 7,000 frontline Army vehicles,
- 50 naval vessels,
- 24,000 non-military vehicles and
- Numerous training, communication and IT systems.

This includes full reliability and maintainability analysis, logistics and supply chain management and platform and equipment maintenance, repairs and upgrades.

### Examples

- We are one of the largest oil analysis providers to the Department of Defense, identifying problems and opportunities in the vehicle fleet before they occur.
- As part of a joint venture, we own and maintain the fleet of frontline construction vehicles used by the British Army. VT Group also supplies the Ministry of Defence with almost 15,000 non-frontline car and trucks.
